

Pawfect Match

Manting Hsu

PROJECT 3

Professor: Jay Edmonson

WEB 603 Advanced Full Stack Web Development

Introduction

- Pawfect Match is a platform that connects loving families with adoptable pets.
- Our mission is to match animals in need with safe, happy, forever homes.

Goals and Objectives

- Develop a responsive SPA with seamless navigation and real-time updates
- Create a centralized platform for services and client management
- Enhance user experience through modern UI/UX
- Enable secure appointment scheduling and data handling
- Provide analytics for business growth

Target Audience

- Age: 25–55
- Gender: All
- Occupation: Small business owners, freelancers, consultants
- Income: Middle to high
- Location: North America
- Tech Proficiency: Intermediate

Key Features

User authentication and profiles

Pet listings and adoption profiles

Appointment scheduling

Register Page Design

The image shows a mobile app registration page for 'Pawfect Match'. The header features a warm-toned photograph of a dog and two cats on a sofa. A semi-transparent navigation bar is overlaid on the image, containing the app's logo and a menu with links to Home, Gallery, About, Contact, and a prominent Register button. The main content area is titled 'Create account' and contains three input fields: Username (with a placeholder 'e.g. pawfan123'), Email (with a placeholder 'you@example.com'), and Password (with a placeholder '8+ characters'). A large blue 'Sign up' button is positioned below the fields. The footer is a solid blue bar with copyright text, a disclaimer, a 'Follow' label, and social media icons for Twitter, Instagram, and Facebook.
